Subject: CES tech review comments #2
Attachments: Enclosure 1 - Evaluation of CES Mendota ERR Plan 9-16-20.docx; Enclosure 2 - CES Financial Responsibility Evaluation 9-16-20.docx; draft Cover Letter for Tech Review comments on CES C6 permit app 9-16-20.docx

Hi David,

Attached is our technical review comments #2 for your review and comments.

Please note that since the EPA Cost Evaluation Tool was designed for EPA's use, we may not want to show our cost estimates, including exhibits and appendices in the FR evaluation to CES, rather only to ask CES for the information described in "Questions/Requests" and to recommend them to hire an independent third party to conduct an estimate on costs of all required activities.

Thanks,
Calvin
